Fisp (Company Certification)	✔
FSC Certified Wood	✔
SKA Rating	✔
WELL Product Features Met	x10 & SO1
VOC Free	✔

Statements:

- Connection considers the environment throughout the lifecycle of our products; from the initial design & development through to product end of life.
- This is achieved with the help of certification to ISO14001, FSC®, PEFC and FISP.
- All material datasheets for product materials and manufacturing processes have had their CAS (Chemical Abstracts Service) codes checked against both the European Chemicals Agency and US International Living Building Institute 'red lists' to confirm that all Connection products do not contain VOC's which are of very high concern; or; not to be used in offices.
- Connection manufacturing* is the transport, utilities and waste/packaging - allocated by production unit.
- Connection manufacturing^ is offset by Gold Standard credits, via Forest Carbon.
- Calorific values are calculated by our waste providers energy statistics.
- Carbon footprints are based on FIRA's Footprinter tool.
