

Campers&Dens

Intuitively define *your* workspace

orangebox

Product Description

Campers&Dens is not just a pod system, it's a step change in built environment interior architecture.

A unique, demountable system that can be moved, re-positioned or re-used to suit changing needs, *Campers&Dens* builds on key Orangebox innovations such as our internationally patented opening roof system. The platform offers both unrivalled adaptability and the benefits of a manufactured system, putting it perfectly in sync with today's fast-evolving and constantly changing workplace – in contrast to one-off static designs, which are no longer fit for the future.

Campers&Dens is the updated answer to Why Build Walls?, delivering layers of privacy through pods, cabins and awnings; and flexibility and choice thanks to its wide range of configurations. A beautiful and refined piece of interior architecture, *Campers&Dens* also offers a customisable canvas for architects, designers and clients to have fun with, helped by finishes ranging from fabric and laminates to plywood and painted metal.

Offering new options for integrating technologies and whiteboards, *Campers&Dens* is accompanied by an expanded range of both integrated and freestanding seating and tabling, with each piece designed to work inside and outside the pods, as well as inside the cabins and under the awnings.

Internal Panel Options

All pod model codes come with upholstered panels on the inside of the pod as standard. As well as creating a appealing aesthetic, the panels make a significant contribution to the acoustic performance of the pod.

For this reason, the internal panels are only available in the upholstered finish option (no other finishes are available).

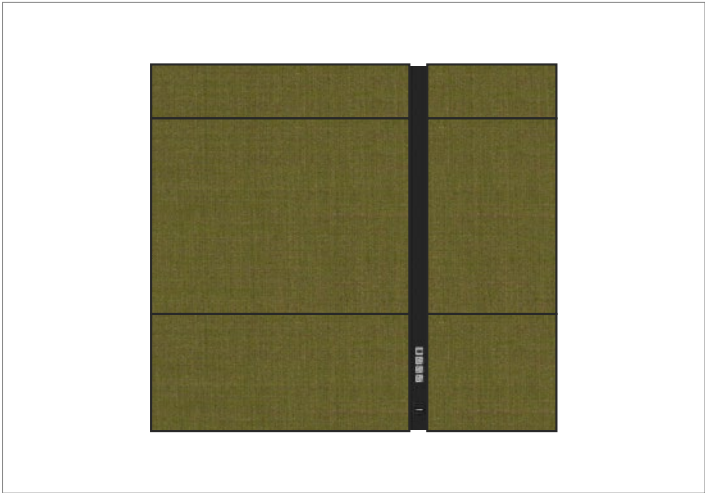

Customers are required to select two principal characteristics for the panels:

- 1. the panel style (vertical or horizontal).
- 2. the fabric specification used on the panels.

Vertical Internal Panels

Fabric Options: Camira Era, Kvadrat Revive 1, Agua Buro, Kvadrat Floyd, Kvadrat Remix 3, Camira Synergy, Camira Blazer, Kvadrat Canvas 2, Gabriel Medley, Patternistas Solid Colours.

Horizontal Internal Panels

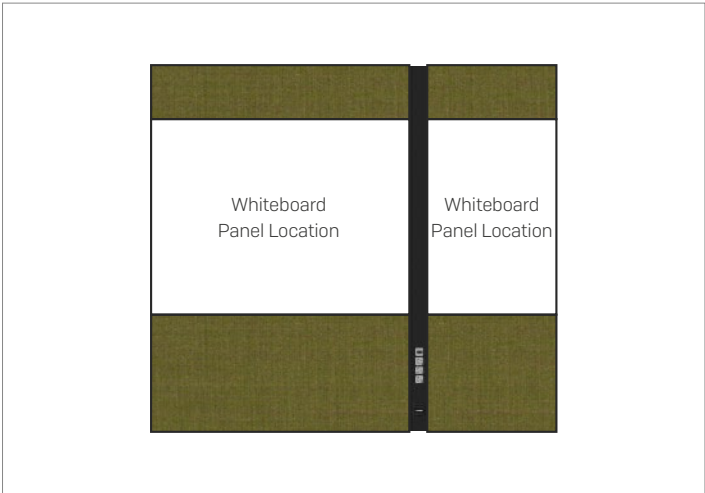

Fabric Options: Camira Era, Kvadrat Revive 1, Agua Buro, Kvadrat Floyd, Kvadrat Remix 3, Camira Synergy, Camira Blazer, Kvadrat Canvas 2, Gabriel Medley, Patternistas Solid Colours.

Internal Whiteboard Panel Locations

Vertical Whiteboard - Internal Location

Whiteboards can be specified in any vertical panel location.

Horizontal Whiteboard - Internal Location

Whiteboards can only be specified in the middle panel location only when panels are split horizontally.

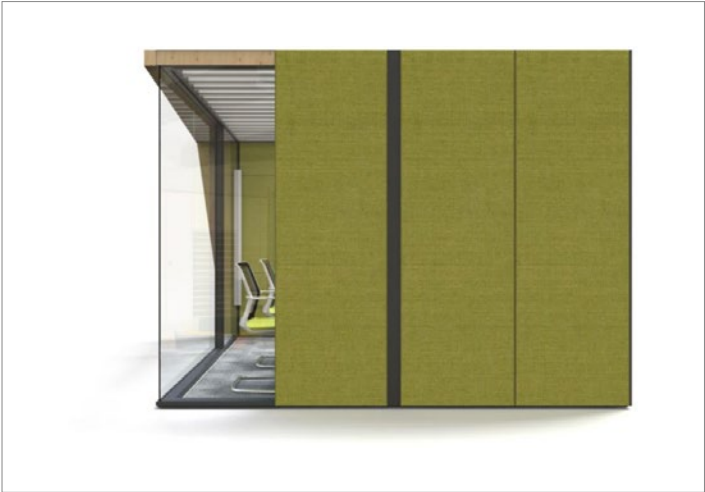

External Panel Options

All pod model codes can be specified with a variety of finish options for the pod’s external panels.

Each option [except plywood] is available in a variety of standard colours / finishes.

Customers are required to select two principal characteristics for the panels:

- 1. the panel style [vertical or horizontal].
- 2. the finish specification used on the panels.

Vertical External Panels

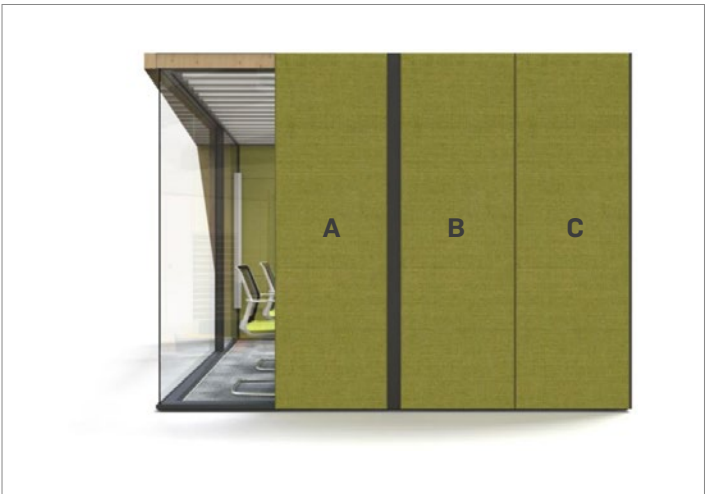

Vertical panels are available in all finishes.

Horizontal External Panels

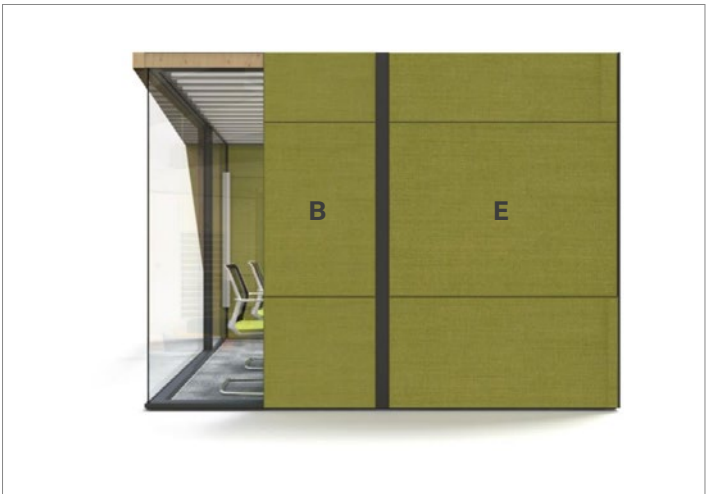

Horizontal external panels are only available in the upholstered finish, options include: Camira Era, Kvadrat Revive 1, Agua Buro, Kvadrat Floyd, Kvadrat Remix 3, Camira Synergy, Camira Blazer, Kvadrat Canvas 2, Gabriel Medley, Patternistas Solid Colours.

External Whiteboard Panel Locations

Vertical Whiteboard - External Location

On exterior walls with vertical panels, customers can specify any panel location to be replaced by a whiteboard (panels A, B and C).

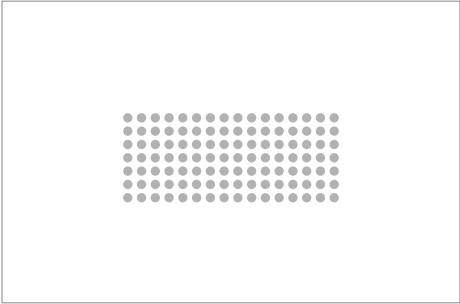

Horizontal Whiteboard - External Location

On exterior walls with horizontal panels (NB upholstered finish only), customers can specify any middle panel location to be replaced by a whiteboard (panels B & E only).

Service Hoop Options

Customers can choose to specify additional service features for three of the pods vertical hoops:

- Power side interior hoop
- Power side exterior hoop
- Switch side exterior hoop

The switch side is always on the same side as the door (and cannot be upgraded).

For each hoop vertical customers can choose options for:

- Integrated table mounting
- Screen mounting
- Additional power sockets (exterior hoop only).

Power Sockets

Every pod comes with internal power sockets located toward the bottom of the power side vertical hoop.

The standard configuration is 3 power and an isolator switch but many alternative configurations are also available as upcharge options.

Please refer to the Orangebox pricelist for full details.

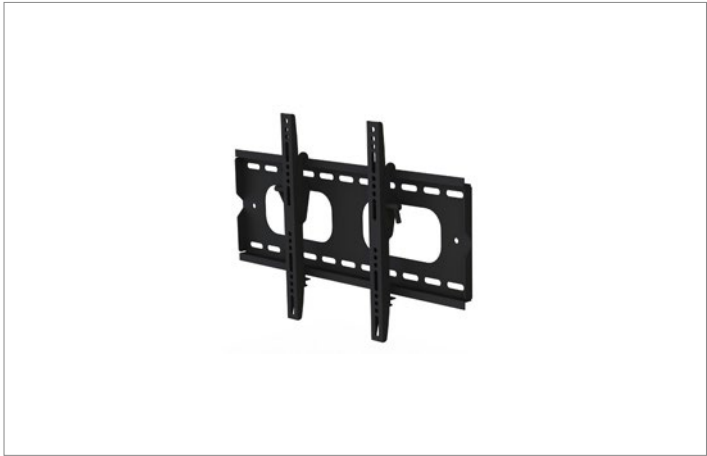

Hoop Power & Accessory

	Internal [Switch Side]	Internal [Power Side]	External [Switch Side]	External [Power Side]
Air inlet - vent	●	●	●	●
3 gang power socket (with on/off switch)	-	●	○	○

Hoop mounted fixed monitor bracket (standard or bar height)	-	○	○	○
Hoop mounted fixed monitor bracket with VC support bracket (standard or bar height)	-	○	○	○
Hoop mounted adjustable monitor arm (standard or bar height)	-	○	○	○

*Only available as an option on CD05 pods.

Standard Specification ● Optional Upcharges ○ Not Available -

Service Hoop Options

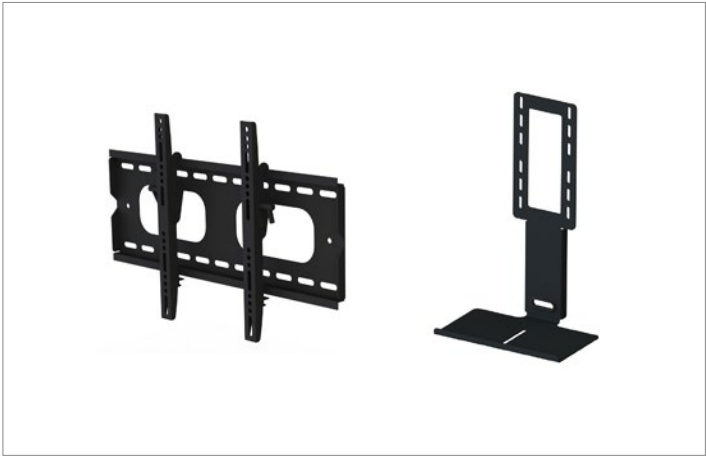

Hoop Mounted Fixed Monitor Bracket (with Tilt)

This option can be specified at standard table height and bar height, inside or outside the pod.

When choosing this option the hoop comes equipped with our standard tilting monitor bracket which is suitable for screens up to 55 inch (max weight of 20kg).

When this option is selected on an external hoop, an additional set of power sockets are also fitted.

Hoop Mounted Fixed Monitor Bracket with VC Support Bracket.

This option can be specified at standard table height and bar height, inside or outside the pod.

This option is designed to support VC equipment when no integral table is specified.

When choosing this option the hoop comes equipped with our standard tilting monitor bracket (suitable for screens up to 55 inch max weight of 20kg) as well as a secondary bracket for supporting video conferencing equipment (250mm x 150mm max footprint)

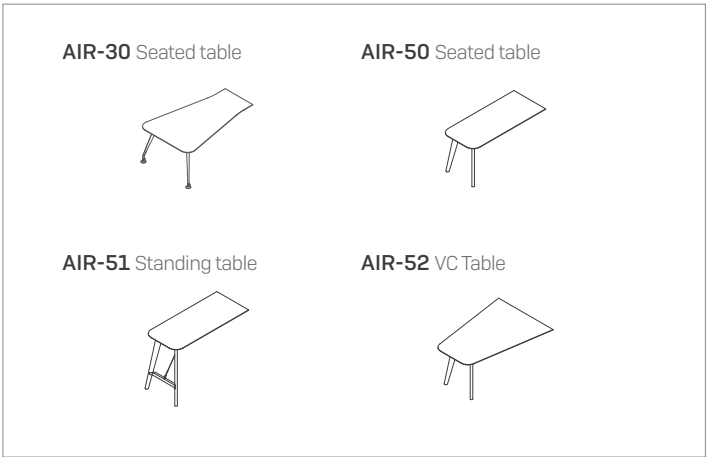

Hoop Mounted Adjustable Monitor Arm

This option can be specified at standard table height and bar height, inside or outside the pod.

When choosing this option the hoop comes equipped with an adjustable monitor arm bracket that has a max reach of 415mm and is compatible with VESA 75 & 100 mounting.

Suitable for a max screen weight of 12kg.

When this option is selected on an external hoop, an additional set of power sockets are also fitted.

Integrated Table Mount

This option can be specified at standard table height and bar height, inside or outside the pod (CD05 pods only for power side interior hoop).

When choosing this option the hoop comes equipped with fixing points that are compatible with the following table model codes:

Air-30 – Seated Table
Air-50 - Seated Table
Air-51 - Standing Table
AIR-52 - VC Table

NB Tables sold separately.

Kinks & Cabins Options

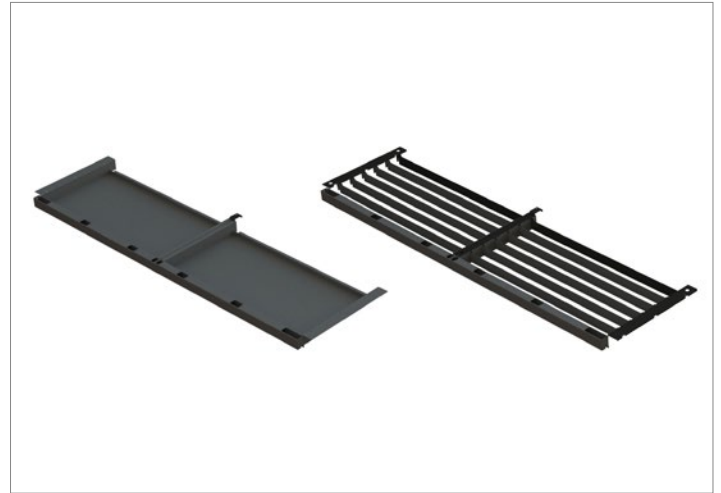

Kink Options

The distinctive 'kink' elevates the pods' architecture, reflecting an outdoor cabin or cabana - softening and enhancing the welcome.

All pods have the option of being specified with the 'kink' which is available in a variety of materials to match or compliment the finishes on the exterior of the pod.

The following finish options may be specified on the kink (as per the exterior panel finish options):

- Birch Plywood
- Polyester Felt
- Laminate

Specifying Cabins

CD01, CD02 and CD05 pods can both be specified with cabins attached to the back wall.

The cabins can be specified with either solid steel or louvred roof panels.

Internal panels can be specified in fabric only.

External panels have a variety of options to choose from.

NB When a pod is specified with a cabin, the rear wall of the pod can only be specified with vertical upholstered panels.

Standard Product Description

Finish Options:

Fabric – Svensson Nova range or Kvadrat Daybreak range.

Patternistas Designs:

Aerate – Blue, Gold or Green.

Germinate – Green, Pink or Blue.

Cultivate – Aqua, Coral or Olive.

Ombre – Darkblue-Aqua, Gold-Pink, Lightgreen-Green, Pink-Green, Magenta-Burgundy, Brightblue-Darkblue, Darkgrey-Aqua, Darkgrey-Coral or Darkgrey-Olive.

Cord – Terracotta, Burgundy, Oxford Blue, Violet, Highland Heath, Lime, Olive Green, York Gold, Blond, Silver, Lakeland Slate, Eton, Emerald, Black or Orange.

Plywood Slats – Plywood.

Polyester Felt Slats – Charcoal Grey CG06, Silver Grey, SG04, Desert Sand DS10, Grape Vine GV36, Moss Green MG10.

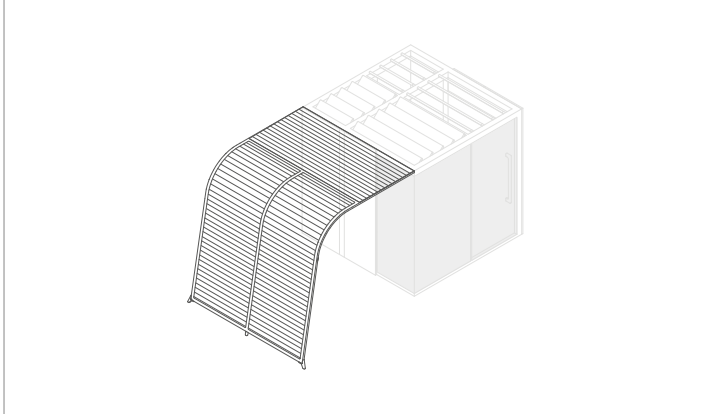

Legs: Oak legs as standard.

Minimum recommended ceiling height for installation 2550mm.

Awning Finish Options

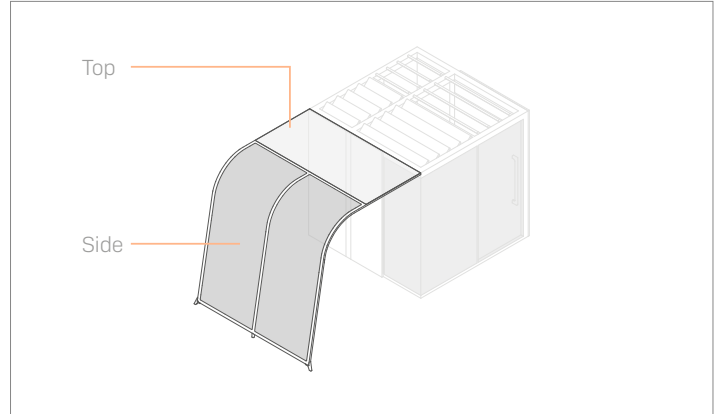

Specifying Finish Options

Finish options can be specified as a full or split finish.

Full Finish

The full finish option covers the whole awning frame in one finish.

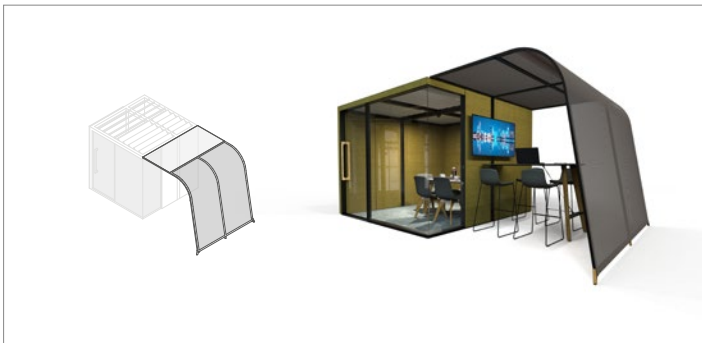

Split Finish

The Split finish option covers the top of the awning frame in one finish and the side of the awning frame in another finish.

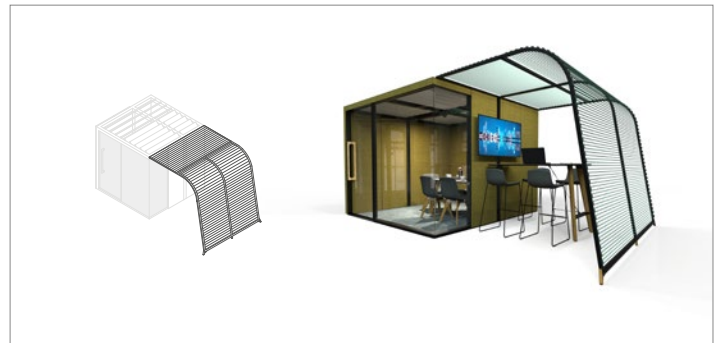

Some finishes can be used in both the split and full finish scenarios and some can only be used in the split scenario.

There are four finishes to choose from:

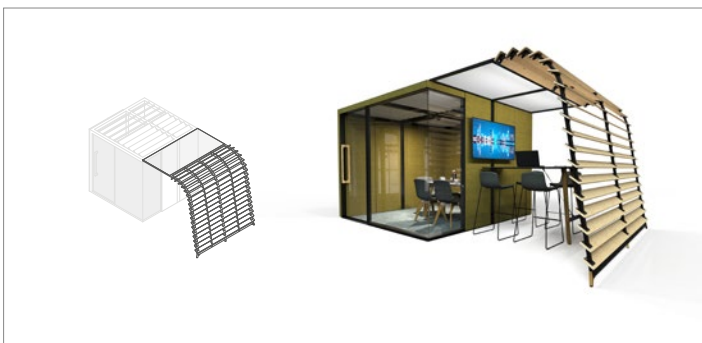

Fabric

Can be specified as a full or split finish on the top or side. Available in Patternistas patterns, Svensson Nova and Kvadrat Daybreak.

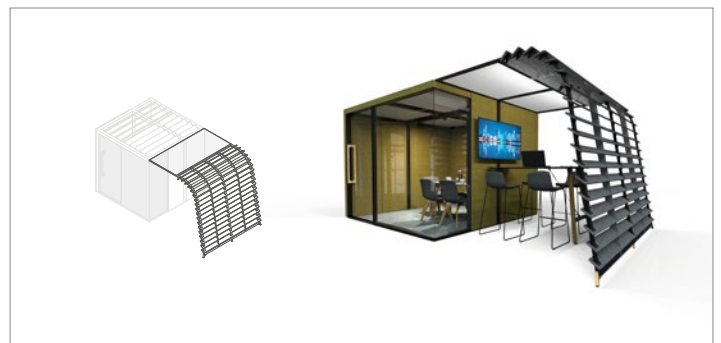

Cord

Can be specified as a full or split finish on the top or side.

Birch Plywood Slats

Can be specified as a split finish on the side only.

Polyester Felt

Can be specified as a split finish on the side only.

Product Specification — Hacking

Standard Product Description

Fabric Hacks:

Stretch Fabric – Svensson Grain range or Kvadrat Time 300 range.

Patternistas Designs:

Aerate – Blue, Gold or Green.

Germinate – Green, Pink or Blue.

Cultivate – Aqua, Coral or Olive.

Ombre – Darkblue-Aqua, Gold-Pink,

Lightgreen-Green, Pink-Green,

Magenta-Burgundy, Brightblue-Darkblue,

Darkgrey-Aqua, Darkgrey-Coral or

Darkgrey-Olive.

Birch Plywood Hacks: Straight Birch Plywood

Slats or Wavy Birch Plywood Slats.

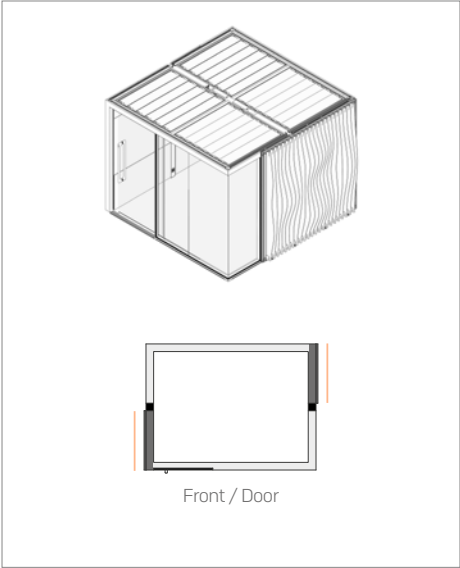

Minimum recommended ceiling height for installation 2550mm.

Hacking Finish Options

Product Options

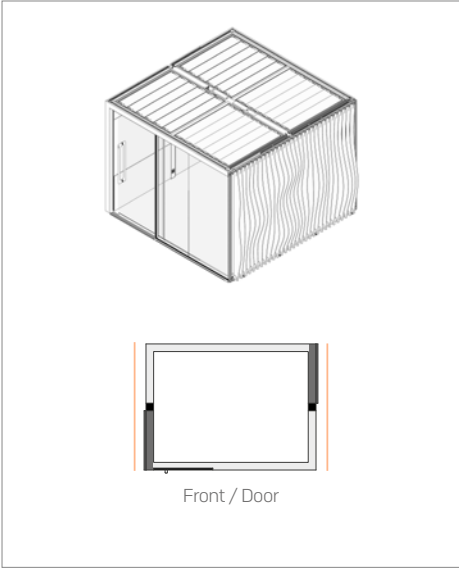

There are 3 variants of the hacking wall configurations that cover smaller or larger areas along the side of a Pod.

■ Wall ■ Glass — Denotes hacking wall coverage

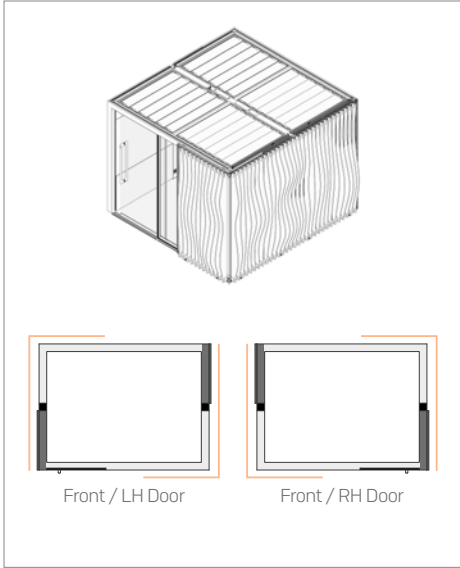

Up to Glass Corner

Covers the side of a pod where there are “solid” wall panels when corner glass is configured. It can be specified in fabric or wooden slats. **Cannot be specified on the same side as an awning.**

Full Pod Depth

Covers the entire side of a pod. Can be specified in wooden slats on all pod configurations but only in fabric when corner glass is not configured. **Cannot be specified on the same side as an awning.**

Around Corner

Covers the entire side of a pod and wraps around the corner. **Cannot wrap around the front of a pod when a kink is specified. Cannot be specified on the same side as an awning. Cannot wrap around the back of a pod when an awning is specified in this location.**

Fabric Hacking Frames (HACK01-05)

The fabric options on the hacking frames are stretched over a rib structure to create a unique visual effect.

Fabrics can be selected from 3 fabric ranges:

Svensson – Grain

Kvadrat – Time 300

Patternistas Designs:

Aerate – Blue, Gold or Green.

Germinate – Green, Pink or Blue.

Cultivate – Aqua, Coral or Olive.

Ombre – Darkblue-Aqua, Gold-Pink, Lightgreen-Green, Pink-Green, Magenta-Burgundy, Brightblue-Darkblue, Darkgrey-Aqua, Darkgrey-Coral or Darkgrey-Olive.

Svensson and Kvadrat ranges are standard fabric ranges from each of these suppliers. The Patternistas range is unique to Orangebox.

Wooden Slats Hacking Frames (HACK06-13)

The wooden finish options on the hacking frames are a series of birch plywood slats evenly distributed on the exterior walls of a pod.

Wooden slat finishes are available in two variants, Straight Slats and Wavy Slats.
